Prayer Request:

Hi Family! I have an urgent prayer request. A good friend of mine called me tonight and informed me that her 14-year-old grandson was diagnosed with leukemia tonight. He was seen yesterday at Chop for growths in his groin and they just got the results and he was just admitted to the hospital. Please Pray as the Lord leads you ...much love and God bless. His name is Jaquile and he just turned 14 on May 2nd. Thank you; the prayers of the righteous availeth much!
