Prayer Request:

---

Special prayer request: Belinda is 38 years old, and pregnant with her second child, after 2 years they didn't even think she could have the first one. The doctors are saying that the baby is at risk and might have something worse than Down's Syndrome. She is in war with the thoughts in her mind and doesn't want to believe the reports from the doctor but is conflicted and is worn out in the spirit. Please pray – today she is going in for a procedure to do testing of the amniotic fluid. She and her husband are believers.
